

# FTP TO ACTIVEMQ

The screenshot shows the Apache ActiveMQ web console. The top navigation bar includes links for Home, Queues, Topics, Subscribers, Connections, Network, Scheduled, and Send. The 'Queues' section is active, showing a table of queues. The 'lond' queue is listed with 1 pending message, 0 consumers, 1 enqueued message, and 0 dequeued messages. The console also displays the Apache Software Foundation logo and various utility links on the right side.

Name	Number Of Pending Messages	Number Of Consumers	Messages Enqueued	Messages Dequeued	Views	Operations
lond	1	0	1	0	<a href="#">Browse Active Consumers</a> <a href="#">Active Producers</a>	<a href="#">Send To Purge</a> <a href="#">Delete</a> <a href="#">Pause</a>

# ACTIVEMQ TO FTP

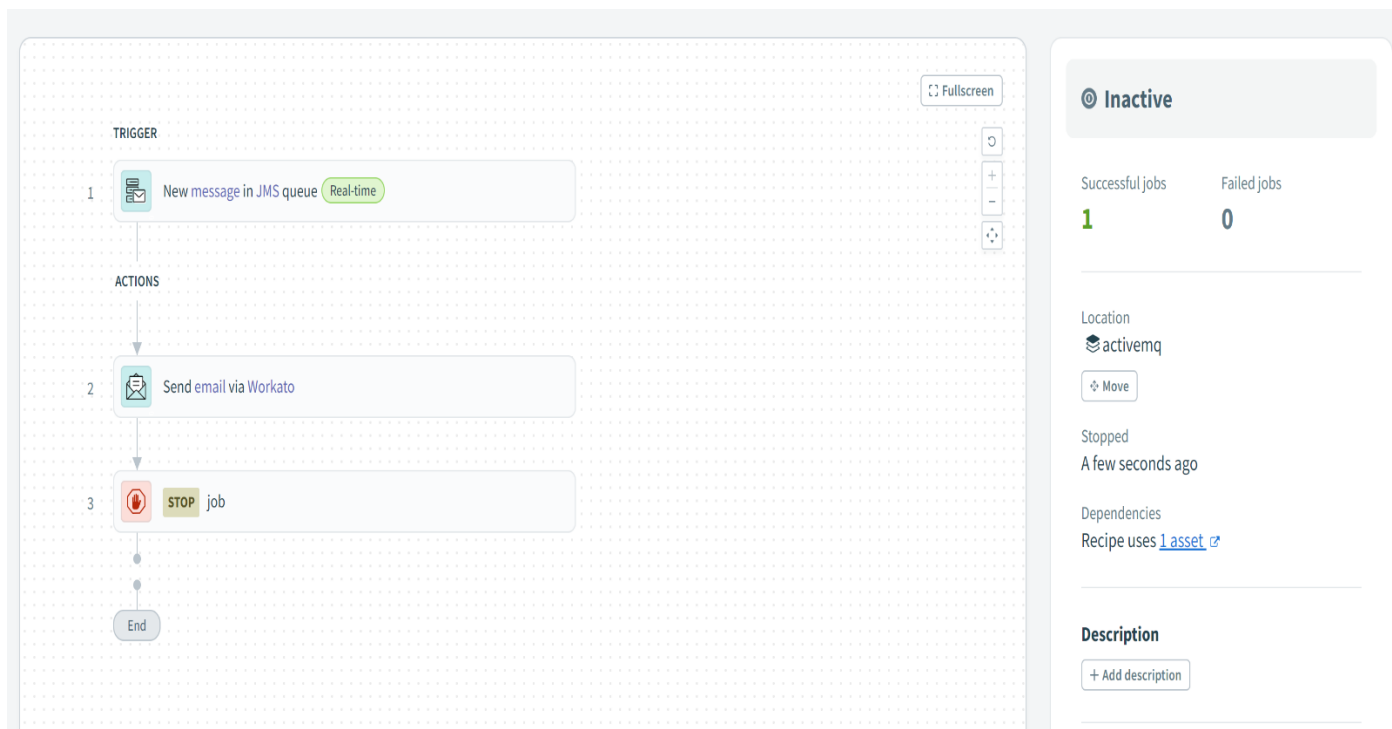

The screenshot displays the ActiveMQ web console interface. The top navigation bar includes links for Home, Queues, Topics, Subscribers, Connections, Network, Scheduled, and Send. The right sidebar contains links for Support and Logout. The main content area shows the 'Queues' page with a table of queue information.

Name	Number Of Pending Messages	Number Of Consumers	Messages Enqueued	Messages Dequeued	Views	Operations
lond	0	0	0	1	<a href="#">Browse Active Consumers</a> <a href="#">Active Producers</a>	<a href="#">Send To Purge</a> <a href="#">Delete</a> <a href="#">Pause</a>
